Quadrant			•	•
Circular				•
Center of gravity				•
Virtual point				•
Number of points to be tracked in one session	1	5	5	unlimited
Numerical input of point				•
Simultaneously tracking of multiple images				•
Import / Export				
Import of data files like Diadem, ISO, ASCII				•
Export of data files like Diadem, ISO, ASCII			•	•
Import of images (AVI, TIFF, MPEG, JPEG and others)	•	•	•	•
Export of images (AVI, TIFF and others)				•
Export of diagrams and images to Word document	•	•	•	•
Scaling				
Correction for depth scaling				•
Dynamic scaling		•	•	•
Static scaling		•	•	•
Manually scaling	•	•	•	•
Co-ordinate system				
Free setting of origin				•
Free setting of co-ordinate axes				•
Setting of off-set angle				•
Visualising of grid system in image			•	•
Visualising of grid division in image			•	•
Visualising of scale in image			•	•
Diagram and tables				
X / Y diagram			•	•
X / T diagram	•	•	•	•
Multiple axes (4 axes) X / T diagram				•
Advanced X/Y diagram				•
Data tables free choice of parameters	•	•	•	•
Contour plotting				•
Stick figure plotting				•
Full interactivity between time, image, diagrams	•	•	•	•
Individual setting of horizontal and vertical scale			•	•
